

# NE India Missions

## July – August 2021 Report

Dear Pastor West, FSBC and supporting churches:

I want to express my heart-felt gratitude to all of you for your diligence and faithfulness in reaching out around the world to support missionaries who seek to rescue lost souls. I am so thankful for your prayers and support as we proclaim the gospel and plant churches in the Thangkhal region of Northeastern India. Your love and concern for our spiritual and physical welfare is deeply appreciated.

We conducted an evangelistic crusade and held a children's conference in our local church and saw 13 precious souls come to Christ as Saviour in these past two months. Our ministry here has been very successful and effective through the leading and guidance of God the Holy Spirit.

Your financial support is very valuable to us and to this region and will do many great things for our Lord and His people here in these last days. Your support has helped us in reaching and winning many lost souls. It has also helped us in constructing several church buildings. We are currently ministering to eight congregations in various villages.

Also, your support has helped us to care for the sick and feed needy families. We have many new fields where we would like to plant new churches, even outside the Thangkhal area. May our Omnipotent God bless you abundantly in the days to come.

- Missionary Gin & Ching Kipgen
